RESULTS MANAGEMENT MADE EASY

timingsolutions.com.au

30 min set up - live results/points

1300 954 487

info@timingsolutions.com.au

Timing Solutions currently manages over 130,000 athletes around Australia within Little Athletic centers and school carnivals. Results management is made easy through the ResultsHQ system. An industry leading product consisting of Windows, Android and iOS apps, wireless timing hardware and a web based results platform.

Schools across Australia are choosing to use ResultsHQ to manage their school sport programs. Taking only 30 minutes to set up it provides live results and points throughout the day. No more hard judgment calls on a close race and no time and human error in adding points for athlete and house results.

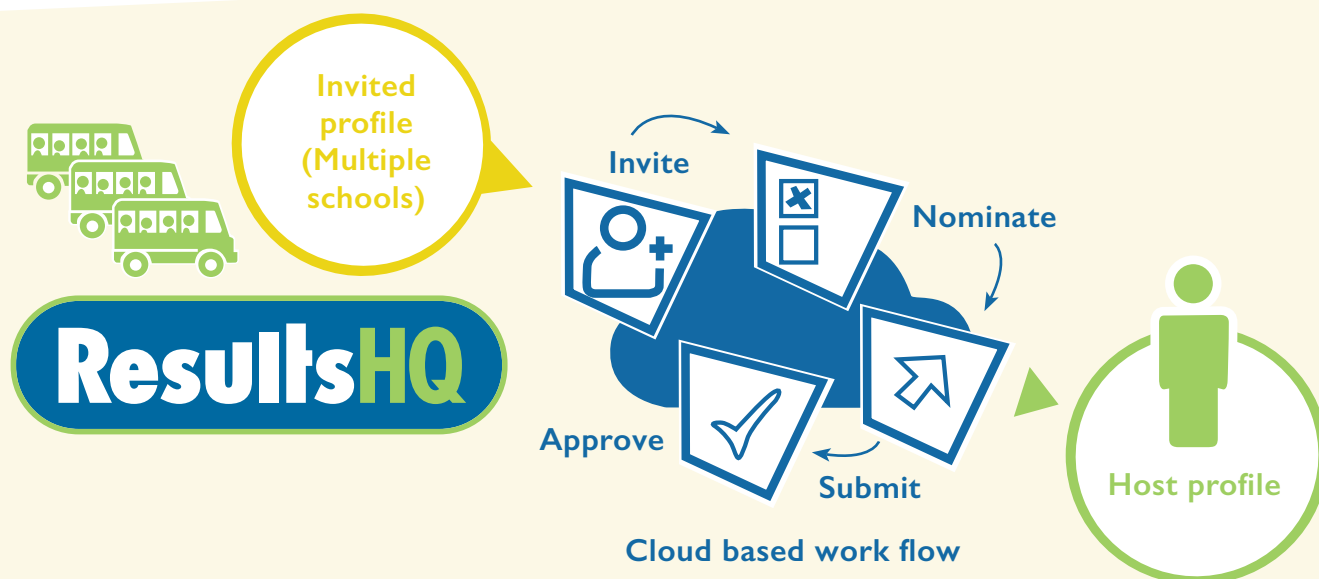

Support is only a phone call away. Timing Solutions is an Australian owned and supported product.

Carnival results management

ResultsHQ

Web based nominations

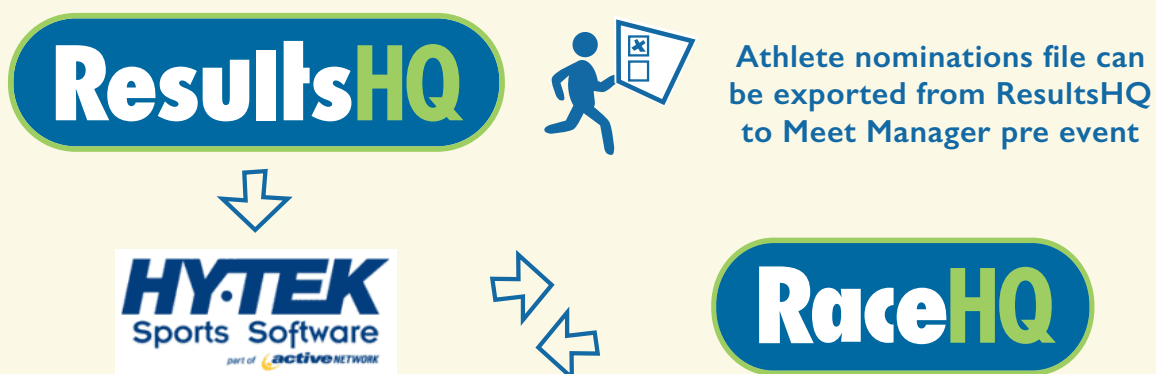

Start line entry

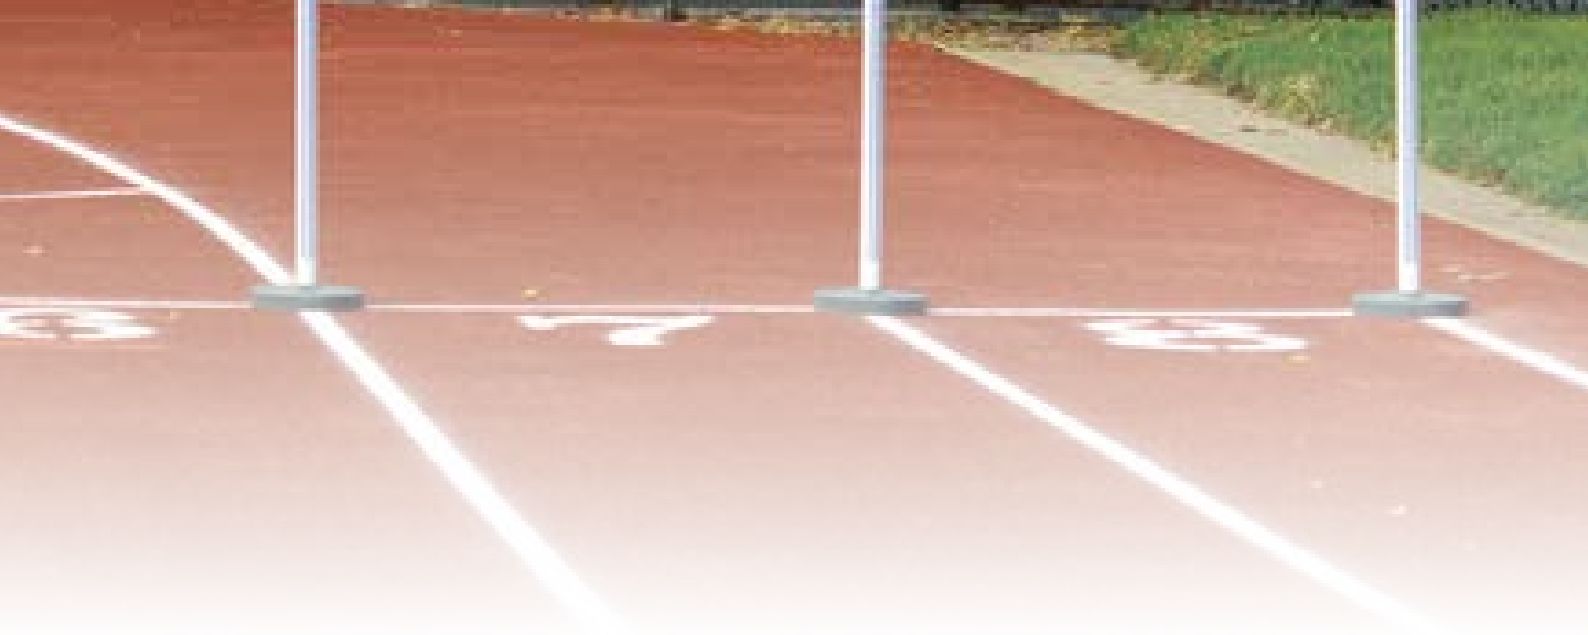

Key in the athlete number against their lane via a phone or tablet at the start line. Populate the current and next two races, allowing combination of age and gender group, collapse heats into a final and switch lanes and/or replace athlete/s on the fly.

Meet Manager integrations

RaceHQ integrates with the Hytek Meet Manager. Save names and lane allocations in RaceHQ then push times from track directly into Meet Manager. Requires Swiss Omega photo finish function enabled in Meet Manager.

All year access

Give teachers, students and families the ability to track fitness testing and carnivals year on year.

Third party hardware integration

RaceHQ can integrate with Swiss Timing and Lynx hardware.
